SUMMARY

As an enthusiastic and evolving Front-end Developer, I am actively seeking opportunities to contribute my skills and creativity to a collaborative development team. I have a solid foundation in REACT.JS and JAVASCRIPT, and I am particularly interested in joining a team where I can leverage my current project experience to craft intuitive and visually appealing user interfaces while continuously expanding my skill set in the field of Front-end development.

PROJECTS

SAVE MONEY

incomeexpensesmanagement

- My website offers a comprehensive set of tips and strategies to help users effectively manage their income and expenses using JAVASCRIPT.
- Developed a responsive income and expenses management website using HTML, CSS, and JavaScript, demonstrating my expertise in JavaScript.
- Focused on enhancing my (CSS) skills to build a strong foundation in this area and ensure the website is visually appealing and user-friendly across all devices.
- The website allows users to calculate their income and expenses effectively.

PROTFOLIO

Madhankumarvprotfolio

- My portfolio reflects my identity and highlights all of my projects, making it easy for you to explore them.
- I learned to manage REACT components and implement functionality using JAVASCRIPT, deepening my knowledge of state management and hooks. This process helped me establish a strong foundation in REACT, I also used the router for smooth navigation.
- I utilized TAILWIND CSS for styling my portfolio to improve my CSS skills and establish a solid foundation in this area, along with adding a feature for sending messages.
- I made sure the portfolio is fully responsive, which helped me develop the skills needed to create an engaging and adaptable user experience.
